

## Facilities Notice

**Title:** Science Buildings Renewals

**Location:** Petch Building (Ph I) – Labs 052, 060,145, 225, 252 and associated ante-rooms  
Cunningham Building – Rooms 013/017 and 113

**Description:** In preparation for the Science Buildings Renewals, Kinetic Construction will be constructing hoardings (temporary walls) to separate the construction areas from other uses of the building as well as to provide the required dust control. The hoardings will be built around the entrances to the labs and associated rooms, and will extend approximately 3.5 feet (1100 mm) into the corridors. Travel routes down the corridors will be maintained.

**Time frame:** Hoarding construction may start as early as Thursday, April 13, 2017. Individual hoardings will remain in place for the duration of the related lab/room renewal. Completion dates for Phase I lab/room renewals range from August to October, 2017. Hoardings for Phase II of the lab renewals will be constructed following the completion of Phase I. A separate Project Notice will be issued at that time.

**Facilities Management contact:** Scott Kingham, Senior Project Manager  
**Secondary contact:** David Hill, Senior Project Manager
