Facilities Notice

Title: Notice of Temporary Power Shutdown

Location: Petch Building

Description: As part of the Science Buildings Renewals project, power to the Petch Building will be temporarily shut down for data collection and field measurements in advance of installing a new emergency generator. The existing life safety generator will operate during this time.

It is also recommended that electronic equipment, such as personal computers, fax machines and laboratory equipment be unplugged from power receptacles and shut down by 4:45 pm, July 25, 2017 to avoid the risk of damage that could result from voltage fluctuations which may occur during this work.

Please ***DO NOT*** unplug any telephone sets.

Time frame: Tuesday, July 25, 2017 (approximately 5 pm – 9 pm)

Facilities Management contact: Scott Kingham, Senior Project Manager

Secondary contact: David Hill, Senior Project Manager
