Facilities Notice

Title: Construction of the New District Energy Plant

Location: Parking Lot 6

Description: Construction of the new District Energy Plant will begin in early August 2017. The building will be located in the southwest corner of Parking Lot 6. In preparation for construction, Facilities Management and contractors will erect temporary site fencing around the construction area. There will be a reduced parking capacity and some traffic flow interruptions through the construction period.

This initiative will result in saving energy, replacing aging infrastructure, reducing operating costs and reducing greenhouse gases for many years to come.

Time frame: August, 2017 through October, 2018

Facilities Management contact: John Tierney, Project Manager
