Facilities Notice

Title: Petch Building – Pipe Supports installation in Basement Corridor

Location: Petch Building – Lower Level Corridor

Description: Facilities Management and Kinetic Construction Ltd. will be installing pipe supports to house new chiller, fire suppression and electrical conduit in the Petch Lower Level Corridor on the evenings of December 18, 19 and 20, between 5pm and 2am.

Pipe supports will be welded in place and sections of the corridor will be closed as overhead work takes place. The pipe support frames are needed due to the already congested nature of the ceilings in this area.

Fire Alarm by-pass procedures will be in operation and it is not anticipated that work will create vibration as repetitive impact tools will be avoided.

Time frame: December 18, 19 and 20, 2017 – 5:00 pm – 2:00 am

Facilities Management contact: David Hill, Senior Project Manager
Secondary contact: Scott Kingham, Senior Project Manager
