Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: Bob Wright Centre – Humidifier Shutdown

Location: Bob Wright Centre (BWC) Roof

Description: Facilities Management, AME Consulting and Aral Construction Ltd. are working on upgrades to the HVAC and humidity controls system in the Bob Wright Centre to provide more control and efficiency to B-Wing floor 0. Please see the attached drawing for the work area and area affected by this shutdown.

This will require a shutdown of both humidifiers serving the area shown on the drawings for 8 hours. This will allow the contractor to cap one of the humidifier's safely so they can work on demolishing it for this project and make room for the new humidifier. The AHU-503 will be operational during this time period. As a backup for the affected area, UVic FMGT PMS & M&O will provide portable humidifiers until the new humidifier is installed.

We apologize for any inconvenience.

Time frame: Wednesday, March 15, 2023, 8:00 am – 4:00 pm
