| Title: | Energy Transfer Station Project –Building heating and washroom interruption |
| Location: | Michael Williams Building (MWB) |
| Description: | <p>Facilities Management, Rocky Point Engineering and SRD Controls are working on renovations for the Energy Transfer Stations across campus to optimize the District Energy Plant. Due to this, MWB building heating and the washrooms will need to be temporarily interrupted while we install some new controls equipment. We have planned to complete this scope of work after-hours to reduce inconveniences to staff working in the building. Temporary signage will be installed on the washrooms. The contractor will be mainly working in MWB room B132.</p> <p>We apologize for any inconvenience.</p> |
| Time frame: | Thursday, March 23, 2023, 4:00 pm – 11:00 pm |
