

## FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

---

**Title:** Engineering Lab Wing – Duct Installation

**Location:** Engineering Lab Wing (ELW) B118e

**Description:** Facilities Management, AME Consulting and Aral Construction Ltd. are working on renovations in ELW B118e. The scope of work for this project includes updating the ducting and adding new extraction arms in B118e, as well as a new exhaust fan and associated ducting in the mechanical penthouse.

For this project notice, the contractor needs to complete duct welding in B118e.

UVic shops will undertake the Fire Alarm Masking and smoke detector masking for B118e. Fire Alarm drain downs are not required as this room doesn't have sprinklers.

The fire alarm will remain operational for the building. We apologize for any inconvenience.

**Time frame:** November 1-3, 2023, 8:00 am - 4:00 pm
