

## FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

---

**Title:** Engineering Expansion Project - Overhead Work between ECS and ELW

**Location:** Breezeway Between ECS and ELW

**Description:** In support of the Engineering Expansion Project, Bird Construction and FMGT Project Management Services will be doing some overhead work to bring cabling from the Engineering Expansion site to the north side of ECS/ELW connection. There will be a scissor lift located in the breezeway between ECS and ELW to support this work.

Delineators and danger tape will be in place to keep occupants out of the lift area, but the breezeway will remain open as a circulation route during this work.

Please follow instructions of any safety personnel in the area and do not enter any taped off areas.

**Time frame:** Wednesday, May 1 – Friday, May 3, 2024

**FMGT contact:** Orianne Johnson, Project Manager  
Adam Gerber, Project Manager
