

Facilities Notice

Title: Scheduled Power Outage – Electrical Panels FW / UW1 and UW2

Location: Petch Building

Description: Facilities Management Electrical shop will be assisting the contractor with some electrical tie-ins for the project F00819 - PETCH CLIMATE CONTROL which will shut off the power to some areas of the building for up to 2 hours.

The following rooms in Petch will be affected:

Fume Hood Exhaust systems
Penthouse – Reverse osmosis system
Receptacles and equipment in rooms: 201, 202, 203, 204,
206 (Computing Systems), 207, 209, 216, 218, 218A, 219, 220, 221,
222, 223, 223B.
Room 241 – Air conditioners #1 and #2

Note: This shut down will affect fume hoods in these areas, but may also affect the exhaust system to all fume hoods. It is advised that all staff and students **not to use any fume hoods** in the Petch Building during this power outage.

As you leave the building on the evening of Tuesday, January 14th, 2014, electronic equipment, such as personal computers, facsimile machines, electronic and laboratory equipment should be powered off and unplugged from power receptacles, in order to avoid the risk of possible damage that could result from voltage fluctuations which may occur during this work.

Please DO NOT unplug any telephone sets.

Time frame: Wednesday, January 15, 2014 from 5:30 a.m. to 7:30 a.m.
