Facilities Notice

Title: Heating System Shut Down

Location: University Centre

Description: Be advised that Facilities Management will be shutting down the hot water heating system in University Centre Building to assist the contractor with a heating system drain for the University Food Services renovations.

The heating will remain on overnight to keep the building temperature warm before it is shut down early Tuesday morning. This work is expected to take a few hours to complete and the building temperature should stay close to normal. In case the building does cool down a little before the job is complete and the heating reinstated, we recommend you bring along an extra sweater this Tuesday.

Time frame: Tuesday, February 18, 2014 – 7:30 am

Facilities Management contact: Gordon Shirley, Senior Project Officer
