

School of Health Information Science

Seminar:

Google and Generative AI in Healthcare

Speaker:

Alex Mendeleev

Solutions Architect | Google Cloud

June 17 on Zoom

12:00PM PT

Explore Google's mission to transform healthcare through Generative AI. Discover cutting-edge medically trained language models like MedLM, AI-powered medical imaging, and semantic search for medical records. Learn how Fitbit integrates with Google Health to empower personal wellness. This session offers a glimpse into the future of medicine.
