# Greek and Roman Studies 203: Unearthing the Ancient Mediterranean

Fall 2024    TWF    1:30-2:20 p.m.    Professor Alejandro Sinner

GRS 203 is an introduction to the archaeology of the ancient Mediterranean. The course explores the archaeology of Greece and Rome from the Neolithic to the Late Roman Period, focusing on the changing relationship between humans and their environment as expressed in material objects.

- learn current archaeological methodologies
- explore archaeological technologies like 3D modelling, 3D printing, and virtual reality
- learn about the history of archaeology as a discipline, focusing on major discoveries in Greece, Rome, and neighbouring regions
- study Greek and Roman archaeological sites and material objects

No prerequisites.
