# Greek and Roman Studies 376: Ancient Technology

Fall 2024

TWF 11:30 a.m.-12:50 p.m.

Professor Alejandro Sinner

GRS 376 surveys the technological development and capabilities of Greece and Rome. The course examines extractive technologies, processing of materials, machinery and gadgets, mass production, engineering, and nautical technology, among other topics.

- learn current scholarly approaches to studying ancient technology
- study important examples of ancient technology
- engage in experiential learning with ancient technology
- analyze Greek and Roman technologies in the context of their social environments

No prerequisites. One of GRS 203, GRS 371, or GRS 372 recommended.
