### **Course Description**

This course surveys some of the work of the ancient Greek philosopher, Plato (428/7-348/7 BCE). A student of Socrates and a teacher of Aristotle, Plato is one of the most influential and important figures in the history of Western thought. The mathematician and philosopher A. N. Whitehead remarked that: “the safest general characterization of the European philosophical tradition is that it consists of a series of footnotes to Plato.” It is no surprise, therefore, that today, more than 2300 years later, Plato’s ideas and methods continue to excite interest and reflection. Plato thought rigorously and systematically about a dizzying variety of topics. In this course we will consider some of his ideas, arguments and theories in political philosophy, moral theory, metaphysics, epistemology, and psychology. We will discuss such questions as: what is the best form of socio-political organization? What is justice? How do we come to know anything? What is knowledge? What is the nature of the soul or mind? In what sense, if any, do we survive after death? Whether or not we agree with Plato’s often surprising answers to these questions, there can be little doubt that his method of rigorous argument and careful reasoning in pursuit of those answers calls for careful study and contemplation as much today as during Plato’s lifetime.

All evaluations of tests and assignments will be calculated according to percentage scores. Letter grades and grade point scores are listed purely for reference.

### **Academic Integrity**

Academic integrity is intellectual honesty and responsibility for academic work that the student submits, whether individual or group work. It involves commitment to the values of honesty, trust, and responsibility. It is expected that students will respect these ethical values in all activities related to learning, teaching, research, and service. Therefore, plagiarism and other acts against academic integrity are serious academic offences.

#### *The responsibility of the institution*

Instructors and academic units have the responsibility to ensure that standards of academic honesty are met. By doing so, the institution recognizes students for their hard work and assures them that other students do not have an unfair advantage through cheating on essays, exams, and projects.

### *The responsibility of the student*

Plagiarism sometimes occurs due to a misunderstanding regarding the rules of academic integrity, but it is the responsibility of the student to know them. If the student is unsure about the standards for citations or for referencing sources, the instructor should be consulted. Depending on the severity of the case, penalties include a warning, a failing grade, a record on the student's transcript, or a suspension.

It is the student's responsibility to read and understand the University's policy on academic integrity. For the policy, see the September 2023 edition of the academic calendar (online here: [University of Victoria Statement on Academic Integrity](#)).

### **Intellectual property of materials on the LMS website**

Please note that all assignments for this course and all materials posted to the LMS website are the intellectual property of myself and the University of Victoria. Do not circulate this material or post it to note-sharing sites without the instructor's permission. Posting course materials to note-sharing sites or otherwise circulating course materials without the permission of your instructor violates the Policy on Academic Integrity (link above). Any evidence that you are circulating materials without permission will be referred to the Chair of the Philosophy Department for investigation.

### **Policy on Late or Missed Assignments**

Any assignment submitted after the specified due date will be assessed a penalty of **6%** per day, unless the student can provide a legitimate reason for the delay. For information about legitimate reasons for academic concession, please see [here](#). The previous policies do not apply to students with documented disabilities; all attempt will be made to accommodate such students including, but not restricted to, providing make-up assignments and tests

### **Accessibility**

If you anticipate or experience any barriers to learning in this course, please feel welcome to discuss your concerns with me. ### **Counseling Services**

Many, if not most, students experience some difficulties with their mental health during their years as undergraduate students. Make sure you are familiar with the university's **Counseling Services** (<https://www.uvic.ca/services/counselling/>) which is an excellent resource you have at your disposal on campus. It is hard to shake the stigma associated with problems like depression and anxiety, but if at any point you can benefit from help with mental health issues, please contact Counseling Services. They genuinely want to help, and why not take advantage of this free resource?
