

**SAGE WORKSHOP WITH DR. SHIRI PASTERNAK:**

## **"KNOWLEDGE MOBILIZATION":**

### **FROM SSHRC BUZZWORD TO ACTUAL MEANINGFUL THING**

Have you come across the term 'knowledge mobilization' when tediously filling out grant applications? Have you wondered why this language of *war* is used to describe the thing you are quietly doing in libraries and in your room? And what you can do, beyond peer-review publishing, to impact the world with your research? Using Yellowhead Institute resources, tools, and "collaterals" as examples (plus some other great forms of public intervention), this workshop is a crash course on making knowledge matter beyond normal academic outputs.

**REGISTRATION  
REQUIRED**
