

PHYSICS AND ASTRONOMY

**Dr. Travis Martin,
University of Victoria**

**“Building up physics education at UVic for 2020 and
beyond”**

Abstract

“Over the last 5 years at UVic, I have worked hard to innovate in my teaching. In this talk, I will share with you how I have modernized some of my courses, including some of the innovative and interesting things I have tried. I will also share with you some of the physics education research (PER) topics that I have in progress or planned, some in collaboration with Dr. Laidlaw.”
