Office Hours: T 10:00-11:00 am, and by appointment

Course website: The complete syllabus, readings and links to readings, weekly questions and class notes are/will be posted on Brightspace.

#### **Course Description**

The course will provide students with a broad background in cognitive, social, and emotional development during infancy and childhood. Topics include the biological basis of development; perceptual and motor development; social and emotional development in infancy and childhood; language development; symbolic-representational development, and the development of executive function, Students will learn about empirical findings in these areas and theoretical frameworks used to explain these findings. Emphasis will be placed on the application of knowledge to concrete developmental problems.

#### **Prerequisites for Undergraduate Students**

PSYC 300A, PSYC 300B, and PSYC335; and PSYC 336 or PSYC 339, or have permission from the Undergraduate Advisor. Students who remain in courses for which they do not have the prerequisites do so at their own risk. Students who complete courses without prerequisites are not exempt from having to complete the prerequisite course(s) at some later time if such courses are required for the degree program. Students are responsible for checking their registration status by the add/drop deadline.

#### Requirements

Students will be evaluated on class participation, written assignments, paper presentation, and a group project.

Class Participation: Discussions in class of the assigned readings are an important part of the learning process for this course and the evaluation will reflect these readings and class discussions, accordingly. It is expected that students will read the assigned material prior to class, attend class regularly, and take part in discussions. Students who miss four or more classes without appropriate documentation excusing their absence will receive "0" for participation. Class participation will be worth 15% of the course grade.

**Written Assignments:** Students are expected to submit eight written assignments. These assignments require responses to two questions based on the class readings. The length of written assignments is supposed to be between 200-300 words to each question. Questions will be posted on Brightspace and

the written response must be submitted to Brightspace on the due date. The eight written assignments are worth 35% of the course grade.

**Paper Presentation:** Students are expected to give one in-class presentation on an assigned paper. The presentation requires students to summarize (10- to 15-minute) the paper and guide the subsequent inclass discussion (15%).

**Group Project:** Students are asked to work in groups to address one of five topics that require the application of knowledge about child development to concrete issues. The topics are intentionally illdefined, and thus need to be refined and clarified. As a group, students discuss topics, develop aspects of the topics they want to present on, generate ideas and information relevant to the issue. Students assign work within the group and return following classes ready to present and discuss information they have gathered. At the end of the semester, each group will present in class the information they gathered and create a 3-pager that summarizes the information in a way that is accessible to a broader audience (e.g., policy makers, health care professionals, teachers. parents). Students will be evaluated in terms of the product (in-class summary plus 3-pager) and process (preparation, participation and professional behavior). Performance on the group project will contribute 35% to the course grade. A description of each topic and the deadlines for specific components of each project are provided on BrightSpace.

Failure to give a paper presentation or to participate in a group project will result in a grade of "N" - regardless of the cumulative percentage of all other elements of the course. N is a failing grade and factors into GPA as a value of 0. In accordance with the University's policy on academic concessions, "A student who completes all course requirements is not eligible for an academic concession."

Consequently, students can only request deferrals for the completion of required course components and not for non-essential course components.

#### UNIVERSITY OF VICTORIA

Department of Psychology
Important Course Policy Information
Fall Session 2023

# **Accessible Learning**

The University of Victoria is committed to creating a learning experience that is as accessible as possible. If you are registered with the <u>Centre for Accessible Learning</u> and anticipate or experience any barriers to learning in this course, please feel welcome to discuss your concerns with me. If you are a student with a disability or chronic health condition, you can meet with a CAL advisor to discuss access and accommodations.

#### **Attendance and Absences**

<u>Attendance is important</u>. Students are expected to attend all classes in which they are enrolled. Students may be assigned a final grade of N or debarred from writing final examinations if they fail to satisfy a minimum attendance requirement set by the instructor for lectures, laboratories, online course discussions or learning activities, tutorials, or other learning activities set out in the course outline.

Medical documentation for short-term absences is **not required** (approved by Senate). Students who cannot attend due to illness are asked to notify their instructors immediately. If illness, accident, or family affliction causes a student to miss the final exam or to fail to complete any required assignment/assessment by the end of the term students are required to submit a request for academic concession (see below).

#### **Children and Pets**

If you need to bring your children or pet to class, please do not hesitate to do so. It is understood that sometimes this is necessary due to care circumstances. However, please aim to have minimal class disturbance so that student learning is not impacted.

# **Class Recording and Auto-Captioning Statement**

The instructor may record class sessions and those recordings may be made available to all students in the class via Brightspace. If you have questions or concerns regarding class recording and privacy please contact <a href="mailto:privacyinfo@uvic.ca">privacyinfo@uvic.ca</a>

Auto-generated captioning may be enabled in this course. Auto-captioning is highly error-prone, especially for specialized terminology and proper names. Students are asked to refer to the audio feed for clarification of any errors. If you find captioning errors that are offensive, please contact your instructor and/or teaching assistant so that they are aware. If you require captions as part of an academic accommodation, please contact **CAL**.

All interactions within this environment are subject to the university expectations and policies. Any concerns about student conduct may be reviewed and responded to in accordance with the appropriate university policy.

#### **Course Experience Survey (CES)**

I value your feedback on this course. Toward the end of term, you will have the opportunity to complete a confidential course experience survey (CES) regarding your learning experience. The survey is vital to providing feedback to the instructor regarding the course and their teaching, as well as to help the department improve the overall program for students in the future. When it is time for you to complete the survey, you will receive an email inviting you to do so. If you do not receive an email invitation, you can go directly to <a href="http://ces.uvic.ca">http://ces.uvic.ca</a>. You will need to use your UVic NetLink ID to access the survey, which can be done on your laptop, tablet or mobile device. You will be reminded nearer the time, but please be thinking about this important activity, especially the following three questions, during the course.

- 1. What strengths did your instructor demonstrate that helped you learn in this course?
- 2. Please provide specific suggestions as to how the instructor could have helped you learn more effectively.
- 3. Please provide specific suggestions as to how this course could be improved.

#### Disclaimer

The above schedule, policies, procedures, and assignments in this course are subject to change in the event of extenuating circumstances.

#### Grading

In classes that are based on a percentage grading scheme, the following **Undergraduate Grading Scale** is used

Grade	A+	Α	A-	B+	В	B-	C+	С	D	F
Percentage	90-100	85-89	80-84	77-79	73-76	70-72	65-69	60-64	51-59	< 50
GP Value	9	8	7	6	5	4	3	2	1	0

Rounding is only applied to the final grade and is rounded up at the 0.5% level (e.g., 84.49% is round to 84% and 84.50% is rounded to 85%).

#### **Medical Documentation for absences**

No medical documentation for short-term absences is required (Approved by Senate).

If you are seeking a Withdrawal Extenuating Circumstances or an Aegrotat grade, medical documentation may be required if relevant.

#### **Ombudsperson and Academic Concerns**

From the course calendar...

Depending on the nature of the academic matter of concern to the student, the order in which the student should normally try to resolve the matter is: first, the course instructor; second, the Chair of the department; third, the Dean of the faculty; and finally, the Senate.

If you are having an academic concern or problem that cannot be resolved with your instructor or the Department Associate Chair, you may wish to consult with the Office of the Ombudsperson (<a href="https://uvicombudsperson.ca/contact/">https://uvicombudsperson.ca/contact/</a>. Current contact information for the office can be found here <a href="https://uvicombudsperson.ca/contact/">https://uvicombudsperson.ca/contact/</a>.

#### Policy on Academic Integrity including Plagiarism and Cheating

The Department of Psychology fully endorses and intends to enforce rigorously the <u>Senate Policy on Academic Integrity</u>. It is of utmost importance that students who do their work honestly be protected from those who do not. Because this policy is in place to ensure that students carry out and benefit from the learning activities assigned in each course, it is expected that students will cooperate in its implementation.

The offences defined by the policy can be summarized briefly as follows:

- 1. **Plagiarism**. You must make sure that the work you submit is your work and not someone else's. There are proper procedures for citing the works of others. The student is responsible for being aware of and using these procedures.
- 2. **Unauthorized Use of an Editor**. The use of an editor is prohibited unless the instructor grants explicit written authorization.
- 3. **Multiple Submission**. Only under exceptional circumstances may a work submitted to fulfill an academic requirement be used to satisfy another similar requirement. The student is responsible for clarifying this with the instructor(s) involved.
- 4. **Falsifying Materials Subject to Academic Evaluation**. This includes falsification of data, use of commercially prepared essays, using information from the Internet without proper citation, citing sources from which material is not actually obtained, etc.
- 5. Cheating on Assignments, Tests, and Examinations. You may not copy the work of others in or out of class; you may not give your work to others for the purpose of copying; you may not use unauthorized material or equipment during examinations or tests; and you may not impersonate or allow yourself to be impersonated by another at an examination. The Department of Psychology has a policy of not making old examinations available for study purposes. Therefore, use of old exams without the express written permission of the instructor constitutes cheating by the user, and abetting of cheating by the person who provided the exam.
- 6. **Aiding Others to Cheat**. It is a violation to help others or attempt to help others to engage in any of the conduct described above.

<u>The use of a generative artificial intelligence (AI) is strictly prohibited in any submitted work (unless expressly endorsed by the instructor as part of an assignment).</u> The Department reserves the right to use AI detectors.

Instructors are expected to make every effort to prevent cheating and plagiarism. This may include the assignment of seating for examinations, asking students to move during examinations, requests to see student identification cards, and other measures as appropriate. Instructors also have available to them a variety of tools and procedures to check for Internet and electronic media-based cheating. In instances of suspected or actual plagiarism or cheating, instructors, following prescribed procedures, are authorized to take steps consistent with the degree of the offence. These measures will range from a zero on the test or assignment or a failing grade for the course, probation within a program to temporary or even permanent suspension from the University.

Rights of Appeal are described in the Policy on Academic Integrity in the University calendar Fall 2023.

#### **Prerequisites**

Students who remain in courses for which they do not have the prerequisites do so at their own risk. Students who complete courses without prerequisites <u>ARE NOT</u> exempt from having to complete the prerequisite course(s) if such courses are required for the degree program.

#### **Program Requirements**

For more information see the **UVic Calendar**.

#### **Registration Status**

Students are responsible for verifying their registration status. Registration status may be verified using My Page, View Schedule. Course adds and drops will not be processed after the <u>deadlines</u> set out in the current UVic Calendar.

Students who do not attend classes must not assume that they have been dropped from a course by an academic unit or an instructor. Courses that are not formally dropped will be given a failing grade, students may be required to withdraw and will be required to pay the tuition fee for the course.

#### **Request for Academic Concessions**

Students can apply for <u>academic concessions</u> if their course requirements are affected by (i) unexpected and/or unavoidable circumstances (e.g., illness, family affliction, etc.), or (ii) conflicting responsibilities (e.g., service in the armed forces or first responder, representing the university).

#### Request an in-course extension

If you require more time to complete a course requirement or miss a test or midterm exam, then you will need to complete the "<u>In-Course Extension Form</u>" and submit it directly to your course instructor. All course requirements must be completed prior to the submission of final grades.

- What to do if you miss the final exam scheduled during the formal exam period Apply at Records Services for a "Request for Academic Concession", normally within 10 working days of the date of the exam. Records Services will forward the form to the instructor. If the concession is granted, the instructor will determine how to deal with the situation (for example, a deferred exam). Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record.
- What to do if you require additional time to complete course requirements beyond the normal term. Apply at Records Services for a "Request for Academic Concession", normally within 10 working days of the end of the course. Records Services will forward the form to the instructor. If the concession is granted, the instructor will determine how to deal with the situation. Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record if the missing work has been deemed required. Note, only required course components may be deferred.
