

SOCI 616

ADVANCED STRATEGIES IN QUALITATIVE RESEARCH

INSTRUCTOR: Dr. Garry Gray

Course Description and Objectives

This is an applied course in qualitative research methods. Students will learn how to collect, code, and systematically analyze qualitative data both manually and with the assistance of computer-aided qualitative data analysis software (CAQDAS).

Skills Development

In addition to learning how to systematically analyze qualitative data, students will learn how to write an academic journal article. Students will also receive training in making an academic conference presentation (based on the qualitative research journal article they produce in this course).

Course Pre/Co-requisites:

SOCI 515; or permission of department

* Given the applied nature of this course, students must have already taken a prior graduate course in qualitative research methods (equivalent to SOCI 515) that will have exposed them to the various ontological and epistemological underpinnings of qualitative methodology.

Required Resources

TBA

****** *This course does NOT allow Auditing.*

****** Please note that in-person lectures will NOT be recorded and posted online.

****** *The above outline is only intended to give an overall sense of the course. Detailed course outlines will be made available for all registered students on the first day of class. Only those outlines are to be considered official.*

***** *For questions related to enrollment please contact the Graduate Advisor and/or Graduate Secretary*
