Hello UVic!

My name is Artem, I am a third year Psychology student and I am running to be **YOUR** undergraduate representative on the UVic Board of Governors. Over the past three years, I have been actively involved in campus student leadership and so my campaign is driven by a desire to ensure that the university administration is truly held accountable to the needs of students and actively works to fix the issues they face on a daily basis.

Voice of Students:
I'll prioritize student voices, gathering feedback and empowering student-led initiatives for a more inclusive campus.

Mental Health Support:
Addressing the mental health crisis, I'll work to expand counseling services, reduce wait times, and ensure accessible support for all students.

Diversity, Equity, and Inclusion:
I'll promote diversity initiatives, combat discrimination, and foster an inclusive environment for all members of the University community.

Social and Cultural Education:
I will facilitate social education and cultural sensitivity training for faculty, staff and students to create more respectful interactions on campus.

Transparency and Accountability:
I'll push for transparency in UVic finances, policies, and actions to build trust with students.

Accessible Learning Opportunities:
I'll ensure that accessible learning options like recorded lectures and flexible scheduling are implemented for courses where feasible.

Safe and Inclusive Spaces:
I'll establish safe spaces and zero-tolerance policies for harassment and discrimination.

Environmental Sustainability:
Supporting eco-friendly initiatives, I will work to reduce and offset the university's environmental impact.

Overall, I'm dedicated to creating a welcoming and supportive campus environment that is responsive to the needs and concerns of students.

Together, we can bring positive change to UVic.
Thank you.
