

## Brief Biographical sketch – Kara White

My name is Kara White, I am a CUPE 951 member and a Science Storekeeper within the Faculty of Science. In 2015, I served on the Dean of Science Review Committee which gave me a little experience advocating for the staff within the faculty. Since then, I have represented staff on the University Safety Committee, as well as serving several years on the CUPE 951 executive board. Currently, I represent the active staff on the Staff Pension Investment and Administration Committee. I believe that my work experience over the past 17 years here at UVic and my role in Science Stores gives me a unique perspective to bring to the Dean of Science Review Committee.
